

The Wakulla County EMS System

The Wakulla County EMS operates 7 ambulances from 3 locations with 39 personnel. In 2008, Wakulla County EMS answered more than 2,700 requests for service.

In October 2008, Wakulla County EMS began using a grant funded Electronic Ambulance Call Reporting System from EMS Solutions. This grant furnished both laptop and desktop computers that allows for faster patient care documentation and billing.

Wakulla County EMS has also set a record for 15 consecutive “no fault” inspections by the State of Florida EMS office. These inspections have been both announced and unannounced. The inspections cover both record keeping as well as meeting ambulance, staff and equipment standards.

In July of 1998, the Wakulla County EMS System was designated as the “Provider of the Year” for the State of Florida.
