

# **Board of County Commissioners**

## **Agenda Request**

Date of Meeting: June 2, 2009

Date Submitted: May 21, 2009

To: Honorable Chairman and Members of the Board

From: Benjamin H. Pingree, County Administrator  
Jody Smith, Administrator, Wakulla County Health Department

Subject: Request Board Approval to Allow the Senior Citizens Center to Place a  
Playground on County Owned Property

---

### **Statement of Issue:**

This agenda item requests Board approval for the Wakulla County Senior Citizen Council to use 1700 square feet of county owned land that is shared between the Wakulla County Health Department and Wakulla County Senior Center for the use of a playground for the summer camp program.

### **Background:**

The Wakulla County Senior Citizen's Council is located across from the Wakulla County Health Department where they reside on Oak Drive. The Senior's Council has requested use of 1700 square feet located on the County Health Departments Campus owned by the County. The Council request use of the land to put a play ground and sand boxes for their summer camp program. The Council assures the County that they will remove the play ground at their request if they ever require the land.

### **Analysis:**

The land in question will not place undue hardship on the Health Department and is not in the way of existing fixed or constructed areas. It is located away from the two parking lots and will provide a safe environment for the children with a five foot chain link fenced perimeter.

### **Options:**

1. Approve the Senior Citizens Center to place a playground on County owned property.
2. Do not approve the Senior Citizens Center to place a playground on County owned property.
3. Board Direction.

### **Recommendation:**

Option #1
