Re: Purdom Power Plant Industrial Wastewater Permit  
Permittee: City of Tallahassee  
Project # 203.000

Dear Ms Encinosa:

At your request, I have reviewed the Intent to Issue Permit No. FL0025526-003 for the referenced facility. This draft permit is for the renewal of the existing permit to continue discharge of cooling tower water and other process water to the St. Marks River. The facility uses a combination of water for its processes including St. Marks river water and reclaimed wastewater from the City of St. Marks domestic wastewater treatment facility and from the St. Marks Powder, Inc. facility.

After reviewing the draft permit from an engineering standpoint and opinion, there does not appear to be a concern for this renewal.

Feel free to call me should you have any questions or comments regarding this correspondence.

Sincerely,

Philip Jones, P.E.  
Vice-President/CEO

PJ/sj
