At the March 17, 2009 Board Meeting, the Board held a public hearing to consider adopting text changes to Ordinance 06-28 which establishes and amends flood hazard areas in certain specific subdivisions, establishes building elevations in specific flood hazard areas and regulates fill in specific flood hazard areas. At the April 21, 2009 Board meeting, the Board approved to rescind the action taken from the March 17, 2009 Board Meeting regarding the adopted text changes to Ordinance 06-28; which is now considered Ordinance 09-05. In addition, the Board directed staff to re-advertise the public hearing for a future Board Meeting to adopt an Ordinance repealing Ordinance 09-05.
