

Wakulla County Concrete Construction Projects – Specifications

BID 2009-005

1. Description of each bid item is attached along with the method of measurement and payment. **BIDDERS MUST BID ON ALL ITEMS OR THE BID WILL BE REJECTED.**
2. This is unit price contract however; the basis of award will be the total base bid. Estimates of quantities represent the minimum quantity that will be required at any one particular job location, and are not warranted. The County or their representative has the right to adjust them either up, down, or completely eliminate an item in order to obtain a good finished product. Material price increases indexed to FDOT standards will be allowed upon approval of Wakulla County.
3. This shall be a two year contract, but Wakulla County may terminate the contract at any time.
4. All construction shall conform to Wakulla County Standards for Road and Bridge Construction, as well as all Florida Department of Transportation Construction Standards, where applicable on state maintained roads, including the latest revisions of the Standard Specifications for Road and Bridge Construction and Manual of Uniform Minimum Standards for Design, Construction, and Maintenance for Streets and Highways.
5. Contractor shall be responsible for locating utilities and coordinating with utility contractors as required for removal or relocation.
6. Wakulla County will only pay for actual materials used on these projects. No “partial load” charges will be paid.
7. The culverts requiring mitered ends can vary greatly in quantity, location, and condition, as well as amount of preparation work needed to place and pour forms. The successful bidder will be expected to maintain its bid unit price for all culvert mitered end projects, even if it is one culvert located in a remote area of Wakulla County, regardless of location or quantity in Wakulla County.

8. Bids shall be evaluated based on the following criteria:
 1. Skill and business judgment
 2. Experience with similar projects
 3. Staff and equipment dedicated to the project
 4. Current construction projects
 5. Previous conduct under other contracts
 6. Quality of previous work
 7. Claims and litigation history over past 5 years
 8. References

Bidders **may** submit information or documentation responsive to the above with their Proposal and Bid Form.

9. Each culvert will require two mitered ends.
10. Wakulla County reserves the right to negotiate with the successful bidder for additional services or materials.

Wakulla County reserves the right to reject any and all bids.
