**\*\*\*\*IMPORTANT NOTICE\*\*\*\***

**\*\*\*\*IMPORTANT NOTICE\*\*\*\***

Due to a last minute change in the approved permits the final elevation of the pier has been lowered by 18" to a final elevation of 4.75. The only change in the finished project should be the length of the piles and the slope of the approach onto the pier which now is basically flat. There will not be revised plans issues prior to the bid date, however revised plans will be provided to the successful bidder.
