FINANCIAL POLICIES

Objective of Financial Policies

The objectives of the Wakulla County's financial policies are listed below:

- Provide clear direction to County staff in managing the County's finances, developing and adopting a budget, and ensuring the efficient and effective delivery of services.
- Provide careful fiscal planning and healthy long term financial management of all County resources and activities.
- Comply with all statutory requirements of the State of Florida, County ordinances, and the standards set by the State of Florida, Generally Accepted Accounting Principles (G.A.A.P.) and the Government Finance Officers Association for budget development and financial management.

General Policy:

1. The Operating Budget authorizing expenditure of County funds will be adopted annually by the Board at the Fund level. The Budget will be presented in a multi-year format to aid in long term planning.
2. The budgeted expenditures and reserves of each fund (including the reserve for contingencies, Reserve for fund balance, and all other purposes) will equal the sum of balances brought forward for the fiscal year and all revenues which reasonably can be expected to be received during the fiscal year. In plain language: the revenues and expenditures must be equal on a fund by fund basis in order to present a "balanced budget".
3. Fiscal Planning shall estimate 95% of all ad-valorem receipts reasonably anticipated from all sources. This will be the basis for budgeted revenue F.S.129.01 (2) (b)

Budgeting Process-Summary of Statutory Requirements

Wakulla County has an important responsibility to its citizens to correctly account for public funds, to manage County finances wisely, and to plan for adequate funding of services desired by the public. Chapters 129 and 200 of the Florida Statutes establish legal procedures for Counties to follow when determining their individual budgets, as well as annual tax, or millage that ultimately results from those budgets. The County incorporates these statutory provisions (as well as those Generally Accepted Accounting Principles specific to state and local governments) into all financial policies set forth by the County.

Chapter 129 of the Florida Statutes, titled "County Annual Budget" requires all Counties establish "an annual budget for such funds as may be required by law or by sound financial practice and generally accepted accounting principles. The budget shall control the levy of taxes and the expenditure of money for all county purposes during the ensuing fiscal year." Wakulla County

WAKULLA COUNTY

FISCAL YEAR 2010-11 FINAL BUDGET

naturally observes this requirement, and, as a matter of policy and of law, also follows and incorporates other subsections of this chapter, including such key principles as:

1. Chapter 129.01(2) (b): “The budget shall be balanced...the total of the estimated receipts including the balance brought forward, shall equal the total of the appropriation and reserves.”
2. Chapter 129.01(2) (b): The budget...shall conform to the uniform classification of accounts prescribed by the appropriate state agency.”
3. Chapter 129.01(2) (c) (1): “A reserve for contingencies may be provided in a sum not to exceed 10 percent of the total budget.” The reserve creates a pool for unallocated funds that may be needed for expenses not foreseen or contemplated when the original budget was created, such as storm emergencies.
4. Chapter 129.01(2)(b)(2): “A reserve for cash balance to be carried over may be provided for the purpose of paying expenses from October 1st of the ensuing fiscal year until the time when the revenues for that year are expected to be available.” A cash balance reserve essentially pays expenses for a County until revenues from ad valorem (property) taxes are levied and collected.
5. Using specific procedural guidelines, as established by Chapter 129.06(2), the County Commissioners may amend the current year budget:
 - a. For unanticipated revenue related to a particular fund
 - b. For appropriations of expenditures within a particular fund
 - c. For appropriations from the reserves of a particular fund
 - d. For transfers between funds

Chapter 200, titled, “Determination of Millage” defines how Florida counties must proceed with respect to raising operating monies through taxation of real, personal and tangible property both before and after the final budget is established. The responsibilities of the Property Appraiser, the Tax Collector, and the Board of County Commissioners with respect to this duty are detailed here. In addition, this chapter places special emphasis upon the legal requirement that the proposed millage rates be advertised to the general public well in advance of their finalization, in order to allow the public ample opportunity to respond to them through public hearings. It is the policy of Wakulla County to follow these procedures in order to comply with Florida Law.

Budget Modification

Budget modifications shall follow the rules set forth in Chapter 129.06 Florida Statute.

Wakulla County has two (2) methods of budget modification. The annual budget can either be modified by resolution or budget amendment.

WAKULLA COUNTY

FISCAL YEAR 2010-11 FINAL BUDGET

The purpose of this process is to adjust fund amounts to reflect the level of revenues reasonably anticipated to be received and to balance expenditures to these revenues according to state law and sound financial practices.

A supplemental budget hearing and a budget resolution shall be required for the Board to recognize an unanticipated excess amount of anticipated revenue.

A budget resolution approved by the Board shall be required for revenue from an unanticipated source. A resolution is also required when transferring revenues between funds. In general, a budget resolution with Board approval is required anytime the overall budget fund increases.

Wakulla County has two (2) levels of budget amendments.

1. Any transfer across department/division lines, from reserves, or increase of staffing levels must have Board approval. This also includes any transfer of positions from one department to another.
2. The Budget Officer or his / her designee must approve any transfers affecting personnel costs, capital projects / equipment, and / or all other forms of budget changes (changes to line items) within the same department / division.

All amendments/transfers of funds will first be reviewed and approved by the division or department director of the requesting department, followed by a review for subsequent denial/approval by the Board of County Commissioners and /or the County Administrator, as set forth in the following:

- a. Provide that the County Administrator may authorize intrafund transfers up to \$10,000.
- b. Provide that intrafund transfers greater than \$10,000 and all interfund transfers may be approved by a majority vote of the Board of County Commissioners.

All requests for use of reserves for contingency must be approved by a majority vote of the Board of County Commissioners.

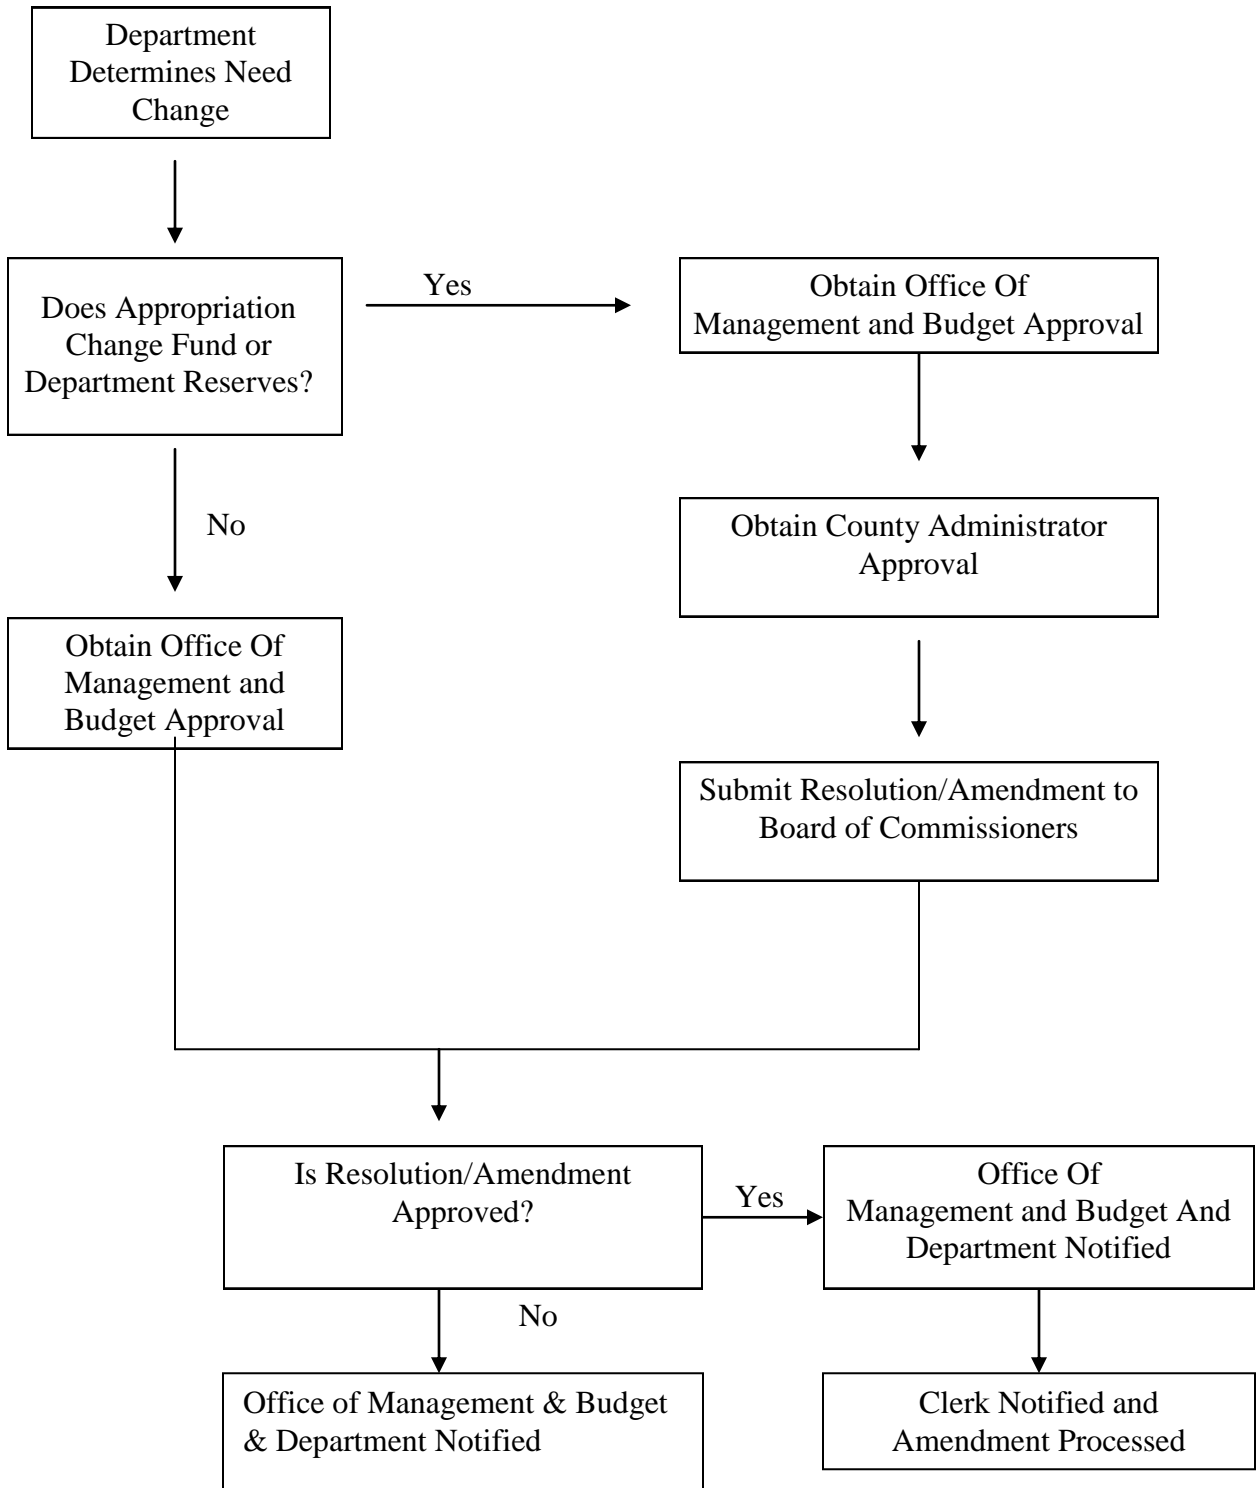

An annual mid-year budget adjustment process will be established to insure that all fund budgets are in-line with Board direction.

All requests for budget modifications must be submitted on a form entitled "Budget Amendment" and signed by the Department Head. They are then sent to the Office of Management and Budget (OMB) for review and approval. If required, they are sent onto the next level for further approval.

Budget Procedure Policy

Budget formulation, adoption, and execution involve year-round interaction of many people at various levels within the County. The purpose of this process is to identify service needs, develop strategies for meeting these needs and development of detailed revenue and expenditure plans to carry out the strategic plans. The budget process incorporates the following procedures and activities.

- The development of the budget preparation manual and the design and printing of budget forms.
- An annual meeting with the Office of Management and Budget (OMB) staff, County Administrator, department heads, and the Board of County Commissioners to set goals and priorities for the coming fiscal year.
- Distribution of budget packages to all operating units at a kickoff meeting with the County Administrator. This meeting will serve as a forum to answer questions on budget procedures and to inform department heads of budget policies and priorities for the coming budget year.
- OMB reviews and tabulates all operating budgets, capital improvement projects, and revenue projections. Each submission is analyzed for accuracy, content, and compliance with the previously determined priorities and policies.
- OMB meets with each department to review their budgets in detail and make adjustments if needed. These meetings give each department head the opportunity to discuss and defend the amounts requested in their individual department budget submission.
- The County Administrator and OMB meet with each department to review and evaluate individual budgets. These hearings provide a forum for the explanation of revisions determined by OMB, and for any additional revisions by the County Administrator.
- Constitutional Officers submit their budgets to OMB by June 1 or as otherwise required by the Board and allowed by law.
- A tentative balanced budget is generated and distributed to the Board by July 15 of each year.
- The Board reviews the requests in a series of budget workshops throughout the year.
- Public hearings are held to adopt the proposed budget, millage rates, and Capital Improvement Program.
- October 1st, implementation of the adopted budget and Capital Improvement Program.

- f. The County may issue bonds only for capital improvement and general obligations. Long-term debt will not be used to fund operating activities.

- h. General obligation debt may not be used for enterprise activities. All such bonds will be supported by revenue from operations.
- i. Where possible the County may use special assessment, revenue or other self supporting bonds and avoid the use of general obligation debt.
- j. The County may maintain a bond retirement reserve, which is the equivalent to the amount of debt service due on tax supported general obligation bonds in the next fiscal year.
- k. The County may issue notes for bond anticipation purposes only

Several guiding principles which are incorporated into the County's Debt Policy are as follows:

1. **Asset Life:** The County will consider long-term financing for the acquisition, replacement, or expansion of physical assets (including land) only if they have a useful life of at least five years. Debt will be used only to finance capital projects and equipment, except in case of emergency.

WAKULLA COUNTY

FISCAL YEAR 2010-11 FINAL BUDGET

County debt will generally not be issued for periods exceeding the useful life or average useful lives of the project or projects to be financed.

2. **Capital Financing:** The County normally will rely on specifically generated funds and/or grants and contributions from other governments to finance its capital needs on a pay-as-you-go basis. To achieve this it may become necessary to secure short term (not exceeding 5 years amortization) construction funding. Such financing is anticipated and allows maximum flexibility in CIP implementation. Debt of longer amortization periods (long-term debt) will be issued for capital projects when it is an appropriate means to achieve a fair allocation of costs between current and future beneficiaries. Debt shall not, in general, be used for projects solely because insufficient funds are budgeted at the time of acquisition or construction.

3. **Debt Guarantees:** The County may consider, on case-by-case basis, the use of its debt capacity for legally allowed capital projects by public development authorities or other special purpose units of government.

4. **Credit Ratings:** Wakulla County seeks to maintain the highest possible credit ratings for all categories of short and long-term debt that can be achieved without compromising delivery of basic county services and achievement of adopted county policy objectives.

5. **Financial Disclosure:** The County is committed to full and complete financial disclosure, and to cooperating fully with rating agencies, institutional and individual investors, agencies, other levels of government, and the general public to share clear, accurate financial and other relevant information. The County is committed to meeting secondary disclosure requirements on a timely and comprehensive basis.

6. **Capital Planning:** To enhance creditworthiness and prudent financial management, Wakulla County is committed to systematic capital planning, intergovernmental cooperation and long-term financial planning. Evidence of this commitment to systematic capital planning is demonstrated through adoption and periodic adjustment of a Comprehensive Plan pursuant to Chapter 163, Florida Statutes, the Florida Growth Management Act and Rule 9 J 5, and the adoption of the five year Capital Improvement Plan (CIP).

7. **Debt Limits:** The County will keep outstanding debt within the limits prescribed by State statute and/or County Charter, if applicable, and at levels consistent with its creditworthiness, best practices, needs and affordability objectives.

8. **Debt Structure:** Debt will be structured to achieve the lowest possible net cost to the County given market conditions, the urgency of the capital project, and the nature and type of security provided. Moreover, to the extent possible, the County will design the repayment of its overall debt so as to rapidly recapture its credit capacity for future use. The County shall strive to repay at least 20 percent of the principal amount of its general obligation debt within five years and at least 40 percent within ten years.

9. **Length of Debt:** Debt will be structured for the shortest amortization period consistent with a fair allocation of costs to current and future beneficiaries or users.

WAKULLA COUNTY

FISCAL YEAR 2010-11 FINAL BUDGET

10. **Back loading:** The County will normally seek to structure debt with level principal and interest costs over the life of the debt. “Backloading” of costs will be considered when natural disasters, extraordinary or unanticipated external factors make the short-term cost of the debt prohibitive. However when benefits derived from the debt issuance can clearly be demonstrated to be greater in the future than in the present or when such structuring will allow debt service to more closely match project revenues during the early years of the projects operation.

11. **Refunding:** County staff and advisors will undertake periodic reviews of all outstanding debt to determine refunding opportunities. Refunding will be considered (within federal tax law constraints) if and when there is a net economic benefit or the refunding is essential in order to Modernize covenants essential to operations and management. In general, advance refundings for economic saving will be undertaken when a net present value savings of at least five percent of the refunded debt can be achieved. Current refunding that produce a net present value saving of less than five percent will be considered on a case-by-case basis. Refunding with negative savings will not be considered unless there is a compelling public policy or legal objective.

12. **Credit Enhancements:** Credit enhancement, such as letters of credit and bond insurance, may be used, but only when net debt service on the bond is reduced by more than the costs of the enhancement.

13. **Variable Rate Debt:** The County may choose to issue securities that pay a rate of interest that varies according to pre-determined formula or results from a periodic remarketing of the securities, consistent with state law and covenants of pre-existing bonds, and depending on market conditions. The County will limit its outstanding bonds in variable rate form to reasonable levels in relation to total debt.

14. **Subordinate Debt:** The County may issue subordinate debt only if it is financially beneficial to the County or consistent with creditworthiness objectives.

15. **Short Term Notes:** Use of short-term borrowing, such as bond anticipation notes and tax-exempt commercial paper, will be undertaken only if the transaction costs plus interest on the debt are less than the cost of internal financing, or available cash is insufficient to meet working capital requirements.

16. **State Revolving Fund Program:** This program provides funds for projects involving water supply and distribution facilities, storm water control and treatment projects, air and water pollution control, and solid waste disposal facilities. Whenever possible, this program will be utilized since the costs associated with issuing the notes are low and local agencies benefit from the strength of the state’s credit.
