

# WAKULLA COUNTY DIVISION OF EMERGENCY MANAGEMENT

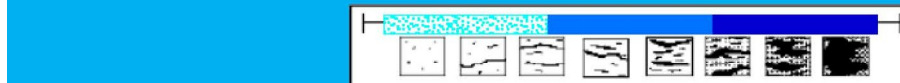

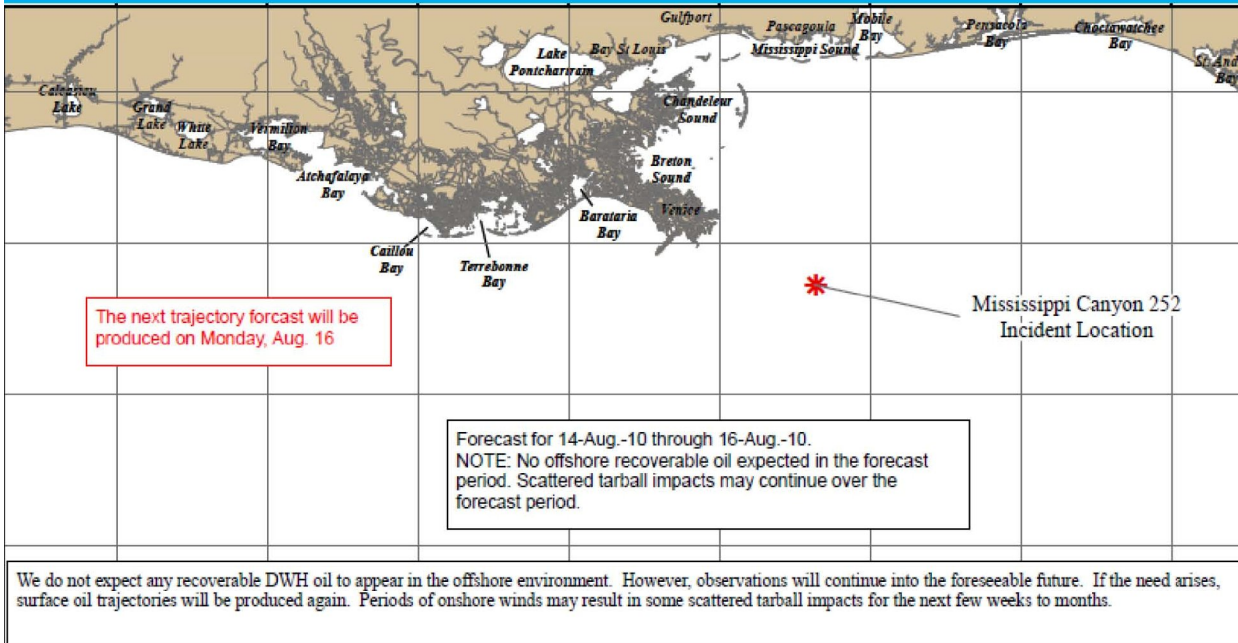

## Interagency Situation Report #108 Deepwater Horizons Oil spill August 15, 2010 15:00 EDT

### I. HAZARD ANALYSIS:

## Nearshore Estimate for Monday

### Weather Summary:

- Scattered to numerous shower and thunderstorm activity is expected across Northwest Florida today. T.D. #5, located about 60 miles southwest of Panama City, is expected to gradually strengthen through the next 48 hours. There is a 60% chance of this system becoming a tropical depression within the next 2 days. Southerly winds will continue to supply the area with abundant tropical moisture and there is a 60-70% chance of frequent showers and storms both onshore and offshore today, with scattered storms possible offshore and near the immediate coastline tonight. Less activity is expected on Tuesday and Wednesday as the system moves westward, but there is still a 40-60% chance of scattered storms along the Panhandle coast. Heavy rainfall will be the greatest threat and rainfall accumulations may approach 2-4 inches by Wednesday morning. Seas of 2-4 feet this morning will increase to 3-6 feet tonight and early Tuesday. Heat indices will reach the 100-105 range each afternoon.

### II. Current Situation:

- **Florida beaches are open.**
- Currently Deepwater Horizon is not discharging any oil into the Gulf of Mexico. Unified Area Command continues with a comprehensive oil well intervention and spill response planning following the April 22 sinking of the Transocean Deepwater Horizon drilling rig 130 miles southeast of New Orleans. On August 5, pressure testing was performed which indicated there is an effective cement plug in the casing. BP believes the static kill and cementing procedures have been successful.

- The National Oceanic and Atmospheric Administration (NOAA) that analysis shows Southern Florida, the Florida Keys, and the East Coast are unlikely to experience any effects from the remaining oil on the surface of the Gulf.
- This event has been designated a Spill of National Significance.
- More than 28,200 personnel are working the on and offshore response.
- Oil-water mix recovered: over 34.7 million gallons. Dispersant: more than 1.84 million gallons deployed.
- Response vessels available: more than 4,300. Response aircraft available: 75

**Florida Specific:**

- All supplemental Tier 3 boom is being removed and stored in the Northwest Florida counties.
- Tar balls continue to be reported in Northwest Florida.
- Oil Containment Boom (in feet) total: 36,400 deployed in Florida. 124 vessels are deployed in Florida for the Vessels of Opportunity program. 351 Qualified Community Responders are working in the Florida Panhandle today.
- Federal Fishery closure, west of Cape San Blas to state line. 26,388 sq mi of southeast portion has been reopened. (see NOAA FB10-060) A portion of coastal state waters offshore of Escambia County reopened for finfish but remains closed for the harvest of crabs and shrimp.
- NOAA forecast oil trajectories do not indicate any recoverable oil to appear across the northern-central gulf, but minor tarball impacts are still possible.
- In addition to \$100,000 for Volunteer Florida to maintain a volunteer registration database, BP has issued over \$82 million in grants to Florida for booming, tourism advertising, and state preparedness and response efforts. An additional \$500,000 has been issued by BP to fund innovative technology solutions for Okaloosa County.
- BP claims in Florida total 38,212 with approximately \$70,022,841.08 paid.
- BP has assumed direct financial responsibility for approx \$9 million of Boom contracts for Florida counties.

**State Actions:**

- State Emergency Operations Center (SEOC) is at a Level 2 (Partial), operating from 0800 to 1700 EDT, with Florida Department of Environmental Protection (FDEP) as the lead agency.
- Governor’s Executive Orders 10-99, 10-100, 10-106 and 10-132 declared a state of emergency for identified Florida coastal counties.
- Governor’s Executive Order 10-101 established the Gulf Oil Spill Economic Recovery Task Force, which will facilitate efforts by Florida businesses and industries to recover the loss of commerce and revenues due to the oil spill.
- Governor’s Executive Order 10-169, authorizing property appraisers to provide interim assessments of properties affected by the Deepwater Horizon oil spill disaster.
- Four Florida branch offices are fully operational in Northwest Florida. These branch offices bring together federal, state and local agencies to streamline response efforts.
- Conducting daily conference calls with county and emergency management partners, the Federal On-Scene Coordinator, and various Unified Commands.

SERT Personnel - Location	Personnel
Forward-SERT, Mobile Unified Command	11
Florida Peninsula Command, Miami	2
Branch 1	3
Branch 2	4
Branch 3	3
Branch 4	1

- A SERT Toxicological Data Analysis Cell is providing consistent scientific assessments of collected sampling to inform local/state decision making.
- 85 Florida National Guard personnel on duty at various duty posts in the Deepwater Horizon area of operations.

- 19,865 volunteers have registered to respond to Deepwater Horizon. 29,841 volunteer hours have been worked.
- AmeriCorps, National Civilian Community Corps members are assisting with models for a community-run Citizen Information Station (CIS).
- Conducting daily reconnaissance flights and shoreline patrol from Escambia to Franklin Counties for impact. Real time reconnaissance reports are being entered into SERT GATOR.
- Currently, Florida's coast has 9 primary decontamination sites and 2 secondary sites for response vessels and 2 that are being operated for commercial vessels. 3 sites for recreational vessel decontamination have been established and 18 additional recreational vessel sites are in negotiations with BP.

**Recovered Oiled Wildlife: 08/16/10**

	Recovered alive*	Released	Died or euthanize d	Still in Rehab	Recovered Dead	Total Recovered	Total Dead

- Emergency Bridge Loan Program, cumulative totals- Applications: 96; Declined: 13; Approved: 83; Amount: \$2,030,000
- The Small Business Administration issued an Economic Injury Disaster Loan Declaration for the State of Florida. Outreach Centers are open in 9 counties. Total Loan Applications: Issued: 756 Accepted: 258 Declined: 104 Approved: 49 Loan amount approved: \$4,715,700.00

**II. PROTECTIVE ACTIONS:**

**A. Wakulla County Administration:**

- Normal Operations
- Emergency declaration established 5-3-2010 Expired 8-9-2010

**B. Wakulla County Sheriff's Office, Division of Emergency Management:**

- Emergency Operations Center is at Level III, Monitoring
- Participating in coordination conference calls with the State Division of Emergency Management county agencies, city agencies, and supporting non-governmental entities
- Monitoring US Coast Guard and BP plans
- Staffing Unified Command Branch 4 in Port St. Joe as needed

**C. Wakulla Public Works Office:**

- Normal operations

**D. Wakulla County Sheriff's Office:**

- Normal Operations
- Providing security at BP Claims Office
- Providing Security at BP outreach Office

**E. Wakulla Agricultural Extension Service:**

- Normal Operations

**F. County Department of Health:**

- Normal Operations

**G. Wakulla County Fire**

- Normal operations

**H. Wakulla County EMS:**

- Normal operations

**I. Wakulla County Recreation Park:**

Normal Operations

**J. US Coast Guard**

- Staffing the EOC
- Providing Coordination with the USCG Sector Mobile
