

WAKULLA COUNTY DIVISION OF EMERGENCY MANAGEMENT

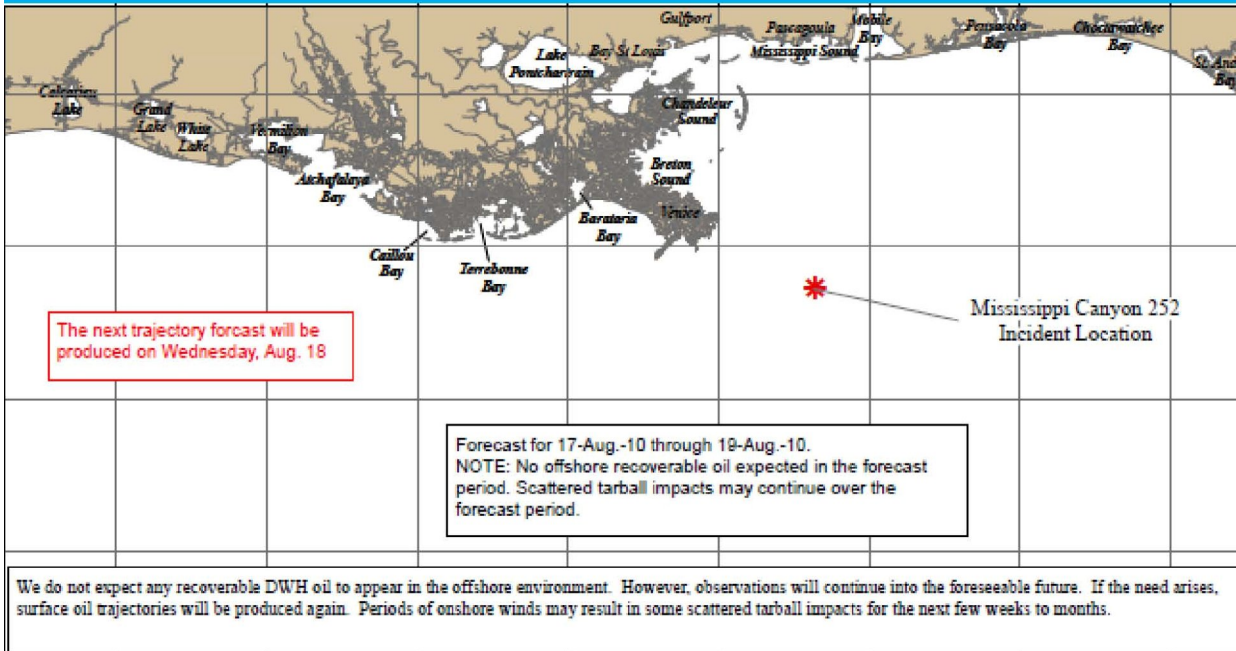

Interagency Situation Report #109 Deepwater Horizons Oil spill August 18, 2010 15:00 EDT

I. HAZARD ANALYSIS:

Nearshore Estimate for Tuesday - Thursday

Weather Summary:

- Scattered shower and thunderstorm activity is expected to continue today and Thursday across Northwest Florida as the remnants of T.D. #5, located over Louisiana and southern Mississippi, interacts with a frontal boundary moving south into the region. There is a 40-60% chance of occasional on and off passing showers and storms both onshore and offshore today and Thursday, with a 30% chance of storms possible near the immediate coastline overnight. Less activity is expected on Friday and Saturday, but there is still a 40-50% chance of scattered storms along the Panhandle coast. Seas of 2-3 feet today will decrease to less than 2 feet by Thursday and continue through the weekend. Outside of showers, heat indices will reach the 100-105 range each afternoon. In the tropics, there is a 10% chance of a tropical wave in the Caribbean Sea becoming a tropical system within the next 48 hours as it moves westward towards Central America.

II. Current Situation:

- **Florida beaches are open.**
- Currently Deepwater Horizon is not discharging any oil into the Gulf of Mexico. Unified Area Command continues with a comprehensive oil well intervention and spill response planning following the April 22 sinking of the Transocean Deepwater Horizon drilling rig 130 miles southeast of New Orleans. On August 5, pressure testing was performed which indicated there is an effective cement plug in the casing. BP believes the static kill and cementing procedures have been successful.

- The National Oceanic and Atmospheric Administration (NOAA) that analysis shows Southern Florida, the Florida Keys, and the East Coast are unlikely to experience any effects from the remaining oil on the surface of the Gulf.
- This event has been designated a Spill of National Significance.
- More than 28,200 personnel are working the on and offshore response.
- Oil-water mix recovered: over 34.7 million gallons. Dispersant: more than 1.84 million gallons deployed.
- Response vessels available: more than 4,200. Response aircraft available: 76

Florida Specific:

- All supplemental Tier 3 boom is being removed and stored in the Northwest Florida counties.
- Tar balls continue to be reported in Northwest Florida.
- Oil Containment Boom (in feet) total: 8,900 deployed in Florida. 35 vessels are deployed in Florida for the Vessels of Opportunity program.
- Federal Fishery closure, west of Cape San Blas to state line. 26,388 sq mi of southeast portion has been reopened. (see NOAA FB10-060) Coastal state waters offshore of Escambia County are now reopened for harvesting of finfish, crabs and shrimp.
- NOAA forecast oil trajectories do not indicate any recoverable oil to appear across the northern-central gulf, but minor tarball impacts are still possible.
- In addition to \$100,000 for Volunteer Florida to maintain a volunteer registration database, BP has issued over \$82 million in grants to Florida for booming, tourism advertising, and state preparedness and response efforts. An additional \$500,000 has been issued by BP to fund innovative technology solutions for Okaloosa County.
- BP awarded \$3 million to the Florida Department of Children and Families to maintain behavioral health and substance abuse services for individuals affected by the Deepwater Horizon oil spill.
- BP claims in Florida total 38,724 with approximately \$7,055,667.37 paid.
- BP has assumed direct financial responsibility for approx \$9 million of Boom contracts for Florida counties.

State Actions:

- State Emergency Operations Center (SEOC) is at a Level 2 (Partial), operating from 0800 to 1700 EDT, with Florida Department of Environmental Protection (FDEP) as the lead agency.
- Governor’s Executive Orders 10-99, 10-100, 10-106 and 10-132 declared a state of emergency for identified Florida coastal counties.
- Governor’s Executive Order 10-101 established the Gulf Oil Spill Economic Recovery Task Force, which will facilitate efforts by Florida businesses and industries to recover the loss of commerce and revenues due to the oil spill.
- Governor’s Executive Order 10-169, authorizing property appraisers to provide interim assessments of properties affected by the Deepwater Horizon oil spill disaster.
- There are three Florida branch offices are fully operational in Northwest Florida. Branches 2 and 3 have been consolidated as of August 18, 2010. These branch offices bring together federal, state and local agencies to streamline response efforts.
- Conducting daily conference calls with county and emergency management partners, the Federal On-Scene Coordinator, and various Unified Commands.

SERT Personnel - Location	Personnel
Forward-SERT, Mobile Unified Command	9
Florida Peninsula Command, Miami	1
Branch 1	3
Branch 2	4
Branch 3	3
Branch 4	1

- A SERT Toxicological Data Analysis Cell is providing consistent scientific

assessments of collected sampling to inform local/state decision making.

- 76 Florida National Guard personnel on duty at various duty posts in the Deepwater Horizon area of operations.
- 19,880 volunteers have registered to respond to Deepwater Horizon. 30,181 volunteer hours have been worked.
- AmeriCorps, National Civilian Community Corps members are assisting with models for a community-run Citizen Information Station (CIS).
- Conducting daily reconnaissance flights and shoreline patrol from Escambia to Franklin Counties for impact. Real time reconnaissance reports are being entered into SERT GATOR.
- Currently, Florida's coast has 9 primary decontamination sites and 2 secondary sites for response vessels and 2 that are being operated for commercial vessels. 3 sites for recreational vessel decontamination have been established and 18 additional recreational vessel sites are in negotiations with BP.

Recovered Oiled Wildlife: 08/18/10

	Recovered alive*	Released	Died or euthanized	Still in Rehab	Recovered Dead	Total Recovered	Total Dead
Birds	0	1	3	67	2	2	
Total	229	18	144		199	428	343

- Emergency Bridge Loan Program, cumulative totals - Applications: 96; Declined: 13; Approved: 83; Amount: \$2,030,000
- The Small Business Administration issued an Economic Injury Disaster Loan Declaration for the State of Florida. Outreach Centers are open in 9 counties. Total Loan Applications: Issued: 781 Accepted: 264 Declined:

II. PROTECTIVE ACTIONS:

A. Wakulla County Administration:

- Normal Operations
- Emergency declaration established 5-3-2010 Expired 8-9-2010

B. Wakulla County Sheriff's Office, Division of Emergency Management:

- Emergency Operations Center is at Level III, Monitoring
- Participating in coordination conference calls with the State Division of Emergency Management county agencies, city agencies, and supporting non-governmental entities
- Monitoring US Coast Guard and BP plans
- Staffing Unified Command Branch 4 in Port St. Joe as needed

C. Wakulla Public Works Office:

- Normal operations

D. Wakulla County Sheriff's Office:

- Normal Operations
- Providing security at BP Claims Office
- Providing Security at BP outreach Office

E. Wakulla Agricultural Extension Service:

- Normal Operations

- F. County Department of Health:**
 - Normal Operations

- G. Wakulla County Fire**
 - Normal operations

- H. Wakulla County EMS:**
 - Normal operations

- I. Wakulla County Recreation Park:**
 - Normal Operations

- J. US Coast Guard**
 - Staffing the EOC
 - Providing Coordination with the USCG Sector Mobile
